I understand that clinicians David Fawks and Nina Kirchgessner are APRN's.

Benefits to Evaluation/Treatment: Evaluation and treatment may be administered with psychological interviews, psychological assessment or testing, psychotherapy, medication management, as well as expectations regarding the length and frequency of treatment. It may be beneficial to me, as well as the referring professional, to understand the nature and cause of any difficulties affecting my daily functioning, so that appropriate recommendations and treatments may be offered. Uses of this evaluation include diagnosis, evaluation of recovery or treatment, estimating prognosis, and education and rehabilitation planning. Clients should be aware that the process of psychotherapy may bring about unpleasant memories, feelings, and sensations such as guilt, anxiety, anger, or sadness, especially in its initial phases. It is not uncommon for these feelings to have an impact on current relationships you may have. If this occurs, it is very important to address these issues in session. Usually these unpleasant sensations are short lived. To the extent permitted by law, I authorize any holder of medical or other information about me to release to the Center of Medicare and Medicaid services, my Medigap insurer, and their agents any information needed to determine these benefits for related services.

* I have the right to review the Notice of Privacy Practices prior to signing this consent. **Cornerstone Psychiatric Services** reserves the right to revise its Notice of Privacy Practices at any time. A revised Notice of Privacy Practices may be obtained by forwarding a written request to **Privacy Officer at 1790 E Venice Ave. Ste 204, Venice, FL 34292.** You can also pick up a copy in our office.

* With this consent, **Cornerstone Psychiatric Services** may communicate to me in reference to any items that assist the practice in carrying out TPO, such as, but not limited to, appointment reminders, billing statements, insurance issues and any messages pertaining to my clinical care, including laboratory test results, among others by use of phone calls to my home, mobile or other alternative location and speak or leave a message; SMS/Text message, Email, postal delivery and/or by the Patient Portal.

* It is further understood that all information given by the patient or family member to a treating clinician is **confidential** and will not be released, except under special circumstances, without patient consent or consent of legal guardian as described in details in the Notice of Privacy Practices. You can authorize us to release information relating to your treatment to another person, provider or company by signing a Release of Information (ROI) form provided by our office.

By signing this form, I am consenting to allow Cornerstone Psychiatric Services to use and disclose my PHI to carry out TPO.
