I assign directly to "Cornerstone" Psychiatric Services, Inc. (including David Donahue, D.O., David Fawks, APRN, Kristoffer Guerrero, APRN, Lenice Haber, LCSW, Nancy Stetter-Coblentz, LCSW or any clinician with the Cornerstone group), all insurance payments, if any, otherwise payable to me for services rendered. I understand I am financially responsible for deductible, co-payments, co-insurance, missed appointment fees, non-covered charges, and any and all balances not covered under a contractual agreement between "Cornerstone" and my insurance or other third party payer. I authorize the use of my signature for all insurance submissions. I request that payment of authorized Medicare benefits and, if applicable, Medigap benefits, be made on my behalf to "Cornerstone" for any services furnished to me by that provider.

If Self Pay, I understand it is my responsibility to pay for services rendered at time of visit.

I understand and agree that "Cornerstone" may use my health care information to the above named insurance payer(s) and their agents for the purpose of obtaining payment for services and determining insurance benefits or the benefits payable for related services. **PATIENT CONSENT FOR EVALUATION OR TREATMENT**  
**CONSENT FOR USE AND DISCLOSURE OF PROTECTED HEALTH INFORMATION**  
**CONSENT FOR OFFICE POLICIES and PATIENT PORTAL POLICIES AND PROCEDURES**

**Consent to Evaluate/Treat:** I voluntarily consent that I will participate in a mental health (e.g. psychological or psychiatric) evaluation and/or treatment by staff from **Cornerstone Psychiatric Services, Inc.** I understand that following the evaluation and/or treatment, complete and accurate information will be provided concerning each of the following areas:

- \*The benefits of the proposed treatment
- \*Alternative treatment modes and services
- \*Expected side effects from the treatment and/or the risks of side effects from medications (when applicable).

The evaluation or treatment will be conducted by one or more of the following provider types: a psychotherapist, a psychologist, a psychiatric nurse practitioner (APRN/ARNP), a psychiatrist, a licensed clinical social worker, a licensed therapist or an individual supervised by any of the professionals listed. I understand that clinicians David Fawks and Kristoffer Guerrero are APRN's.

**Benefits to Evaluation/Treatment:** Evaluation and treatment may be administered with psychological interviews, psychological assessment or testing, psychotherapy, medication management, as well as expectations regarding the length and frequency of treatment. It may be beneficial to me, as well as the referring professional, to understand the nature and cause of any difficulties affecting my daily functioning, so that appropriate recommendations and treatments may be offered. Uses of this evaluation include diagnosis, evaluation of recovery or treatment, estimating prognosis, and education and rehabilitation planning. Clients should be aware that the process of psychotherapy may bring about unpleasant memories, feelings, and sensations such as guilt, anxiety, anger, or sadness, especially in its initial phases. It is not uncommon for these feelings to have an impact on current relationships you may have. If this occurs, it is very important to address these issues in session. Usually these unpleasant sensations are short lived. Possible benefits to treatment include improved cognitive or academic/job performance, health status, quality of life, and awareness of strengths and limitations.

\* It is further understood that all information given by the patient or family member to a treating clinician is **confidential** and will not be released, except under special circumstances, without patient consent or consent of legal guardian as described in details in the Notice of Privacy Practices.
